

NEW!

These were printed by DOTWRITER on an Epsan MX-80.

See What You Can Do With DOTWRITER 4.0!

Now available for the Model 4, too!

DOTWRITER lets you create **spectacular, eye-catching letterheads, catalogs, invitations, or even books.** It is just what you need to turn your dot-matrix printer into a versatile typesetting machine. And it's available for the Model 4 (yes, in native mode) as well as for the Models I and III.

What is DOTWRITER?

DOTWRITER uses the "bit-image graphics" of your printer to produce the kinds of stunning results shown inside the box. It is a full-function text printing program, so you can inter-mix different character sets, do centering, paragraphs, pagination, magnification, draw horizontal and vertical lines, reversals (white on black), and even print right-justified proportional text.

DOTWRITER includes the printing program, complete documentation, and fourteen useful sets of typefaces (60 to 90 characters in each set). We will include the 160 page Letterset Reference Summary at half-price (\$10.00) with your order.

To use DOTWRITER, just write your text with any popular TRS-80 Word Processor, add the necessary format-

ting commands, and DOTWRITER will do the rest.

35 more disks are available separately. Each has 3-12 complete typefaces (60-95 characters in each set).

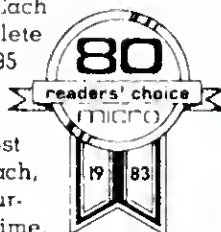

These disks cost less than \$25 each, and may be purchased at any time.

If you want to create your own logos, modify our typefaces, or even design entirely new typefaces, then you will also want to order the "Letterset Design System" (LDS). We offer LDS at half-price when you order it along with DOTWRITER. LDS operates in Model III mode on the Model 4.

Versions are available for Epsan MX-80 with Graftrax, MX-100 with Graftrax Plus, RX-80, FX-80, C. ITOH 8510/1550, Microline 84/92/93, Radia Shack's DMP series 200-2100, CGP-220 & Gemini 10X, 15X. Please specify printer and computer!

Our print samples were done on an Epsan. Sizes vary on other printers. Same as the samples shown here are taken from the additional Letterset disks.

Two disk drives and at least 48K of memory are required. LDS is not available in native Model 4 mode.

Send for free print samples!

We've only shown you a few of the 230 DOTWRITER fonts. If you want the best in graphics printing, we suggest you order DOTWRITER today, toll-free.

Please specify printer and computer when ordering.

DOTWRITER printed these samples at 120 dots per horizontal inch. The more dots per inch, the narrower the result. The examples shown below illustrate the width differences among five major printers. They are in this order: C.1toh (136/inch), Epson (120/inch), DMP (100/inch), Microline (72/inch), and DMP 2100 (60/inch and taller).

ORDER FORM FOR DOTWRITER AND LETTERSETS

February, 1985

You may order lettersets in any of four convenient ways:

1. STANDARD DISKS. Thirty-six disks, each with 3-14 lettersets, are now available. The price per disk is \$24.95. Each disk includes 8-bit patterns for Epson/Citoh and 7-bit patterns for DMP/Okidata. Some of the larger lettersets do not have lower-case letters.
2. ANY THREE DISKS may be ordered together for \$49.95.
3. ANY FIFTEEN DISKS may be ordered together for \$195.00 (\$374.25 if ordered separately). We cannot give credit for previously-ordered disks.
4. CUSTOM DISKS. You may select individual lettersets at \$5.00 each, with a minimum charge of \$50.00 (ten lettersets). Specify either 8-bit *OR* 7-bit sets. If you want both versions, we must charge for two separate orders. Please allow two extra days for custom disks.

Service requested: ☐ Standard ☐ Custom ☐ 3 disks ☐ 15 disks ☐ DOTWRITER
